

11th November 2016

Dear Parents,

The children have settled back in well and I want to congratulate them all on their fantastic behaviour during our trip to Pizza Express. The pizzas were delicious and as you can see from the picture they had great fun!

In maths we have been re-capping our addition methods and will stay with this for a bit longer this term to ensure the children are secure with their method before moving on to subtraction. Please continue to learn their times tables with them as they are improving each week.

Flat Stanley has been to some exciting destinations already and met lots of famous people. If you want to see exactly where he has been we have a display outside of the classroom that is developing daily! This week the children wrote a fabulous newspaper report about Stanley catching some naughty painting thieves!

The children are completing lots of comprehension activities to support their reading and it would be great if they can carry this on at home by answering questions about stories they are reading and making predictions. In addition to this, if you wish to do any extra spelling practice with them we are regularly looking at our high frequency words and trying to use them in class correctly. I am able to provide a sheet if you need one to show you these words.

We are now practising for the nativity and the children are already excited!

Kind regards,

Mrs Wardle and Mrs Patterson
