

13th October 2017

Dear Parents,

In maths, the children have continued to secure their division understanding and are developing a written method that they understand. Thank you for supporting them with their times tables, they are all progressing well. We will continue to embed their division written methods at the start of next week.

I am sending some number sentences home and I would like them to demonstrate their division written method to you. If you choose to do more home learning with your child that is great, I am happy to take a look at it, however I send home a small selection of work they need to re-cap from the week's learning, this along with their continued reading and spellings is plenty for the beginning of Year 3.

In English this week, the children wrote about the fantastic Stone Age day we had on Monday. They thoroughly enjoyed the day and had so many great activities to write about. Mrs Grinstead (as English subject leader) came in to see what happens in Year 3 and worked with the children for the morning on Wednesday. They wrote about some crazy activities that animals had been getting up to whilst humans were asleep. Their ideas were amazing and for a whole morning of writing, they produced some fantastic sentences, using different openings and paragraphs.

Thank you to Mrs Smith for helping with the 'Stone Age' day. We all learnt so much and I thoroughly enjoyed cooking stewed berries, which the children all enjoyed tasting. They built fabulous dens that would keep them dry in all weather conditions!

Please remember that we have forest school on Tuesday.

13th October 2017

Kind regards,

Mrs Wardle and Mrs Patterson
