

Dear Parents,

In maths, the children have been re-visiting their multiplication written methods. They were able to show that they have a clear understanding of what multiplication is asking them to do; they also used their existing times table knowledge to support their learning.

This week in English, the children developed their own character to introduce into Narnia. They described their character and how their part in the story would change or develop things. It was interesting to read how the story changed and what adventure their new character had in Narnia.

Practice is already underway for the Christmas Nativity at the church, also for our class Act of Worship on 1st December. Please encourage your child to learn their lines; this is their homework this weekend, along with reading, spellings and times tables.

In PE this week, KS2 completed a 'Run a Mile' session. They managed to complete 8 laps (or more) and it was great to see them supporting each other, whilst being supported by the Sports Leaders.

Forest School made the children think about finding Narnia again, which they thoroughly enjoyed.

Please remember that the weather is getting colder and we will be doing PE and other activities outside. The children should have a coat, jumper or cardigan in school. It would be great if they can have a tracksuit to do PE outdoors when possible.

If you have a spare kitchen roll/foil inner tube that you are about to recycle, could you please send them in on Monday or Tuesday

17th November 2017

morning? We are doing an experiment on Tuesday in Science that involves using them.

Kind regards,

Mrs Wardle and Mrs Patterson
