

27th January 2017

Dear Parents,

In maths lessons this week the children have been collecting data such as their 'favourite fruit' or 'favourite colours.' They used tally charts to collect the information and then collated it for display using a bar graph and a pictogram. They found accurately drawing a bar graph challenging, however we continued to practise until they were happy with it.

During English the children have continued looking at African stories. This week we focused on 'Tortoise's Dream,' a story they enjoyed really enjoyed reading and discussing. We thought about our own version of the story and came up with great adjectives and similes to set the scene and help them to write the start. In SPaG they have been re-capping 'superlatives' such as; biggest, fastest, smallest, happiest and saddest.

Thank you for attending the KS1 test meeting, I hope you went away with a better understanding and feel more confident about the support you can offer your child and have been reassured that they are receiving lots of support already.

In topic next week we will be making clay pots in a Malawian style. We will also be completing our pipeline challenge. Please ensure that your child has a waterproof coat and a container with them, along with their donation for the charity on Wednesday.

Kind regards,

Mrs Wardle and Mrs Patterson
