

28th April 2017

Dear Parents,

The children have settled back into their routine and are working very hard. They have been focused and motivated, which is great to see!

In maths this week, the children have been ordering numbers and measurements to ensure they have an accurate understanding of number value. They remembered lots of information from previous measurement lessons, but this is an area we will work on throughout the term. They are particularly good at estimating the capacity of various containers around the class, comparing them to bottles containing one litre of water.

In English this week, the children had a return visit from Sawdust the dragon. As a result of this, we read the sequel to our previous story 'The Egg' called 'The Great Dragon Rescue.' They loved the story and went on to write some fabulous descriptions of the witch. The children have also been focusing on SPaG this week, completing tasks on conjunctions and where to use commas to separate adjectives in a sentence. They have demonstrated a good understanding of this.

In PE last week, we began to learn some of the basic requirements of tennis. I was amazed by how good some of the children were and especially their hand eye co-ordination at such a young age. We will continue with this in PE, as they thoroughly enjoyed it...and so did I!

Madame Butterfly sent us a very special package this week to keep in class. Year 2 are now the proud parents of some caterpillars. We

28th April 2017

will be monitoring their growth and hoping to release some beautiful butterflies nearer the end of term.

The children may have mentioned that we are holding our own 'General Election' to choose a Prime Minister, their role will be to help me to organise sports day and maybe come up with a new race.

Kind regards,

Mrs Wardle and Mrs Patterson
