

9th June 2016

Dear Parents,

I cannot believe that we are already into the children's last term in Year 2. This term we will be doing some transition into Year 3, by spending some time in the classroom and getting used to the (slightly different) routines. We have talked about this and the children are very excited about joining the 'big children!'

In maths the children have been considering what it means to work systematically. They completed some pattern problems, involving them having to use a set amount of colours to make as many different style flags as they could. The children then completed a picture Sudoku, which resulted in them understanding the concept and wanting to try a more challenging number suduko.

Thank you for remembering to supply them with enough clothing and suitable items for every weather eventuality on the school trip. The class were amazing and lots of fun, Mr Berry commented on not only how much information they knew, but also how well-behaved they were as a team.

In English the children prepared for the trip by writing a list of everything they might need, then listing everything they were hoping to see using lots of commas. They then compared our trip, hunting mini-beasts, to 'We're Going on a Bear Hunt.' We thought about how we could write our own version, based on this well-known story.

9th June 2016

Please remember the children have Forest School next week and it continues, rain or shine! They will need to be dressed appropriately and have their school uniform ready for afterwards.

The spellings and times tables will continue next week. However the first test will be on the high frequency words. (These are the words they use every day and are familiar with.)

Kind regards,

Mrs Wardle and Mrs Patterson
