

Year 1 Home Learning

Friday 20th October 2017

Dear Parents and Carers,

In Science this week, we made fruit jelly in different flavours! We had to follow some careful instructions and make sure we were safely using the equipment. Then, we discussed how we made our delicious fruit jelly and thought carefully about how we could put the instructions in the correct order. We wrote clear, numbered instructions and wrote a new instruction on a new line. Next, we drew a picture to match each instruction.

In mathematics, we have practised using coins to make different values. We were able to look at each of the coins and then order these based on their value. We know that 1p has the lowest value and £2 has the highest value. We began to make different amounts up to 10p, then 20p using the different coins. We have mainly focused on using 1p, 2p, 5p and 10p coins. By the end of the week, we were able to make different amounts using the different coins confidently.

In our PSHE lesson this week, we have been thinking about our emotions. We discussed the different things that might make us angry and strategies that we could use to help us to calm down. Some of the ideas that we thought of include:

- Calming ourselves down
- Taking a deep breath
- Counting to 10

We are going to try to use these if we feel ourselves becoming frustrated or angry in different situations.

All of the children have settled in well this term and I am looking forward to seeing how they all continue to grow as we move on through the year!

We hope you all have a lovely half term,

Kind regards,

Mrs Martin and Miss Brooks
