

30th September 2016

Dear Parents,

In maths this week the children have been working on their written methods for addition. They are beginning to confidently use an empty number line to support addition and once I feel they are secure with this I will start to look at the expanded column method with them. Once again I have set a 'my maths' task for them to do should they choose. They are becoming familiar with the times tables routine and I can definitely see that they are learning them at home in support of this, many thanks!

In English we have been looking at stories with familiar settings and this has involved reading a variety of 'Elmer' stories. The children have been planning their own adventure for the mischievous elephant to go on and will be completing a big, independent piece of writing as a final activity before moving onto our next story.

This week in PE we played some team sports and the class worked well together. They have also started to think about our class assembly and how as a group we can think about the recent Paralympics and link this to our Christian value of 'trust!' They came up with some fabulous ideas!

Please remember to notify us if your child is going home with another child or relative as although we are becoming familiar with their routines, if it is not written in the contact book we will have to call to check.

Have a great weekend,

Mrs Wardle and Mrs Patterson
