

## Year 5 Newsletter

Hello,

Another week has flown by! I would like to thank you all for the donations to Children In Need, the children looked very spotty!

In Maths, we have been busy reflecting and translating shapes. We have also been using co-ordinates to find jokes in grids and we have been converting and solving problems involving time. There were some very tricky questions on this, but the children persevered and cracked it!

In English, we have been looking at poetry. The children have created some wonderful poems including limericks, kennings, poems using similes and personification. The imagery created was amazing and we certainly have some budding poets in the class.

In RE, we have continued with our topic of Islam. We have been exploring both Muslim and Christian names for God and how they compare.

For home learning, I would like the children to complete the MyMaths page on converting units of time. This should be completed by Wednesday 23rd November 2016.

I hope you have a wonderful weekend,

Mr Deakin
