

Year 5 Newsletter

Welcome to year 5, I hope you all had a terrific summer! The children have settled in well and have already been working very hard!

In Maths, we have been learning the written methods for addition, subtraction and multiplication. The children have been working extremely well and have completed some tricky questions.

In English, we have started our book, 'A pig called Henry'. The children have started to compare how Arthur's life is different from our own. We have also created our own recipes to heal some illnesses and the children have produced some very strange cures!

In Science we are looking at properties and changes of materials. If the children would like to get a head start on the topic, the BBC Bitesize website has some great videos. The link is:

In History, we have started our topic, which is "The Tudors." We have created a timeline of the key events of the period. Again the BBC Bitesize website has some great videos on how the Tudors lived their lives and about the different Monarchs at that time. The link for the Tudor videos is

I hope you have a great weekend! Mr Deakin
