

Year 6 letter

Dear Parents,

What an action-packed week Year 6 have had! It all began on Monday with our trip to London. We were so lucky to have such glorious weather, but the downside to that was that London was very busy. The children walked literally miles and miles and they had to spend an unfortunate amount of time queuing. However, not one complaint was made and it was an absolute pleasure taking the class out for the day. All the walking and waiting was worthwhile, however, when we got such fanatic views from the London Eye. Many thanks to the parents who accompanied us on our trip - I really appreciate your support.

Learning!

We have had time to do some work this week! The children wrote a really detailed recount about our trip and we did plenty of SPaG work. In Maths, the children solved lots of problems involving converting units of measure and we have practised our arithmetic and completed a SATs style test. In Geography, the children have made a start on their Fairtrade project and in Science the focus has been healthy eating. Today has been full of sport, from playing tennis, to learning a dance routine, to shooting penalties against Mr Deakin (yes, I was too chicken to be in goal!) Lots of fun has been had and hopefully we raised plenty of money for charity too.

Rocksteady Workshop

Today the children took part in Rocksteady Workshop. The children now have the opportunity to become part of a rock band! Your child should bring home details today.

Teacher of the Week

Sophie walked into the classroom ready to teach her lesson, dressed as a huge budgerigar! Her mum had kindly brought her pet budgie Rio in too, so the lesson was a success before it even started. Sophie had made an informative PowerPoint, which she read clearly and confidently and the class enjoyed a quiz and an art competition. The chocolate eggs went down very well too!

Saint Patrick's Day

Archie and Isabella are the team captains for St Patrick's team and to celebrate St Patrick's Day, they led a whole school assembly. They were confident and presented the assembly really excellently.

Home learning

The children have brought home a sheet of word problems involving converting units of measurement. I would like the children to select a minimum of 6 problems to solve. They may choose the level of difficulty they attempt, depending on their confidence. The maths should be returned to school by Tuesday next week please.

School Journey Meeting

Just a reminder, we have a parents' meeting about our school journey to Osmington Bay next week on **Tuesday 21st March 2017 at 7pm**. It would be great to see as many parents there as possible, as it is an opportunity to find out all about the residential trip. Another meeting will follow directly after it for any parents who would like to be involved in organising the Leavers' disco at the end of the year - no pressure to stay, but everyone is welcome!

Best wishes,

Louise Grinstead
