

Year 6 letter

Dear Parents,

This week in English, we spent a few days 'Talking for writing', which led to the planning and writing of some excellent, detailed non-chronological reports about dragons. Maths work included interpreting and constructing pie charts, finding the mean of a set of numbers and finding missing angles. In History, the children found out about the Battle of Britain and a science investigation was carried out to discover what happens to shadows as objects get further away from light sources.

Teacher of the Week

This week's teacher was Will and his lesson about cricket was amazing. His PowerPoint was interesting and very well presented. He dressed up Ben C in cricket gear, set the class a great quiz and since 'commentators spend more time talking about cake than cricket,' he even provided us all with a delicious cake!

Home Learning

This week, the children have been given two pieces of home learning. The first is to complete a food diary for a week, which must be brought back to school next Thursday in time for our history lesson about rationing during WW2. Information about the second piece is copied below:

Home Learning - Air Raid Shelters

Find out about one or more air raid shelters that were used in World War 2. Present your findings any way you like. You could use a computer and produce some information and pictures, or you may choose to be more creative - you could draw a detailed diagram, paint a picture, make a collage or even construct a 3D model.

Bring your work back to school after the half term holiday please.

Anderson shelter

Morrison shelter

Best wishes,

Louise Grinstead
