Year 6 letter

Dear Parents,

I can't believe our first term is already over! This week, our main writing task has been to plan and write a set of instructions for how to trap a dragon. In Maths, the focus has been to describe the properties of 2D and 3D shapes and to solve problems involving percentages. We carried out a science investigation to discover which materials make the best curtains and in History the children learnt about rationing during World War 2.

Teacher of the Week

This week's teacher was Rebecca. She had prepared an excellent PowerPoint about kittens and cats. She spoke clearly and knowledgeably, engaging the audience well. We all enjoyed her word search competition, although I never did find 'tuna'!

Home Learning

Over half term, I would like the children to complete the task relating to air raid shelters that I sent home last week. I would like the reports / pictures / models / cakes / paintings or whatever else the children choose to do, returned to school on the first day back please. There are also spellings for the children to learn and, of course, I would like them to continue to read regularly.

I hope you and all your children have a wonderful, restful week off.

Best wishes,

Louise Grinstead
