

God's Wonderful World

God's Wonderful World has...

Amazing frogs, which jump on logs,
Skilful cats, that love eating rats,
Racing cheetahs, that surely beat ya,
What a Wonderful World.

God's Wonderful World has...

Sunny summer breeze, and shivering winter freeze,
Luscious green grass, which is fragile as glass,
Crystal clear sea, which reflects a picture of me,
What a Wonderful World.

God's Wonderful World has...

Stars that sparkle in the night sky, creating feelings of joy that fly,
Sizzling sun, and the majestic moon, higher than a big floating balloon,
Jupiter Saturn Neptune and Mars, four exciting planets that are better than chocolate bars,
What a Wonderful World.

God's Wonderful World has...

Towering mountain peaks, almost reaching on heavens cheeks,
Luxury green valleys, that are always in rows or rallies,
Colossal-sized cliffs, that are always, always stiff,
What a Wonderful World.
