Year 6 letter

Dear Parents,

In Maths this week, the children finally cracked finding the area and perimeter of compound shapes and then they learnt how to find the volume of cubes and cuboids. They also had to find percentages of amounts, in order to solve a Christmas puzzle. In English, they wrote a creative account of 'The Christmas Truce' and wrote a modern version of 'The Twelve Days of Christmas.' In Science, they children designed an electrical scarecrow, which they will be making next term.

Teacher of the Week

This week, David told the class all about the X-box.

Key Stage 2 Nativity

I'm sure you agree that the children were absolutely amazing in the Key Stage 2 nativity. It was certainly the highlight of my year so far and I was super-proud of all the children.

Rock Steady Concert

My face hurt from smiling after the Rock Steady concert! The Year 6 band - Will, Charlotte, Millie and Danny were particularly fantastic.

Three days to go!

Best wishes,

Louise Grinstead
