

Year 1 Home Learning

Friday 23rd November

Dear Parents and Carers,

For English this week, we finished reading our story about Plop, the owl who is afraid of the dark. We used what we have learnt about the character to write our own final chapter. We had to think carefully about all of the punctuation we needed to include, such as capital letters, full stops or exclamation marks, as well as using interesting describing words.

In maths this week, we started off with a number investigation, where we were given 5 different numbers and had to find as many ways as possible to add any two of the numbers together. We tried to record our results systematically, to ensure that our working out was clear and so we wouldn't repeat any calculations by mistake. We had a lot of fun with this investigation and all worked collaboratively to support one another.

This week in our Computing lesson, we were improving our mouse control skills. We listened to a story carefully, which had all of the images missing and then discussed what we could draw on each page to illustrate the text. We then used a program to draw the missing images. This meant that we had to control the mouse very carefully, to make sure that the image looked the way that we intended it to.

I hope you have a lovely weekend.

Kind regards,

Mrs Martin and Miss Brooks

Year 1 Spellings

Each Friday, I will send home a small list of 5 high-frequency words for your children to practise writing at home. The following Thursday, the children will write these words in a spelling test. Here are the words for your child to practise this week:

are
put
all
will
look

If your child is already confident in writing these words, then you can ask them to practise writing these within a sentence.

Trickier, **optional** spellings:

These are a lot harder, so please do not feel like your child has to learn these. Your child may just want to practise writing the words by copying them down.
