

How We Are Now Measuring Your Child's Learning:

The new National Curriculum advocates a mastery approach to Teaching and Learning. Schools are expected to track 'depth of understanding' against age-related descriptors. These (as well as the clapometer) can be found on our web-site under Parent Zone / National Curriculum.

Our tracking uses a five point grading to reflect 'depth of understanding' against the yearly programmes of study.

Met+ and Deep ensures that the 'deeper understanding' of a year's concepts and skills by higher attainers is celebrated. The clapometer below will help illustrate the above information:

Key:
POS = Programme Of Study For Specific Year Group (National Curriculum)
ARE = Age Related Expectations
X = Year Group (E.G. 5.3 = Year 5 Met)
