Year 4 Newsletter

Hello

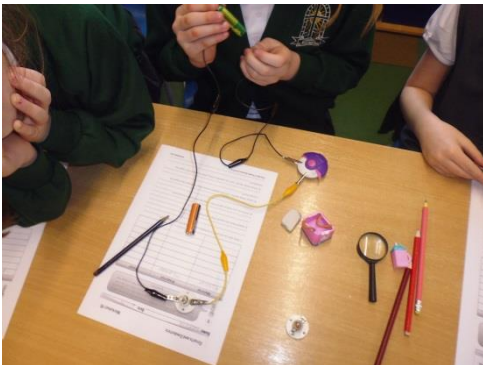

I hope you have had a wonderful week.

In English, we have continued our new book, 'The Iron Man'. The children have written a conversation between the Iron Man and the Space-Bat-Angel-Dragon in the form of a play script. They have also created and performed TV reports about the dragon landing on Earth and they have predicted and written an ending to the story.

In Maths, the children have been finding the area of rectangles and compound shapes, identifying and classifying different types of triangles and they have been multiplying three numbers together. We have also been to the ICT suite to continue using TT Rockstars.

In Science, we have continued our new topic 'Electricity'. The children have been investigating which materials are electrical conductors and

insulators. The children created a simple circuit and then tested different materials around the classroom. They devised the experiments themselves and showed a great level of understanding.

In topic, we have also continued our new topic 'All about Italy!' We have been using information sheets to create a tourist information poster all about Pompeii!

For home learning this week, I would like the children to complete spelling list 3 from their new spelling books and to complete the worksheet on their addition and subtraction written method.

I hope you have a great week,

Mr Deakin, Mrs Gibbs and Mrs Ward.
