Year 4 Newsletter

Hello

I hope you have had a wonderful week.

In English, we have finished our book, 'The Iron Man'. The children have created their own characters and a story plan in preparation for creating their own short stories. The children have also used a thesaurus to edit a piece of work and used those words to create their own word bank.

In Maths, the children have been solving problems involving pictograms and time graphs. The children have also been solving word problems involving time and using reasoning to solve maths investigations.

In Science, we have continued our new topic 'Electricity'. The children have created their own investigations from the question, 'What happens to the bulb when more than one battery is used in a circuit?' The children devised their own experiments on how best to prove their knowledge. They all knew what happened but found it tricky to prove it!

In Forest School, the children were fantastic and showed their love of being outdoors - even though the weather was awful! They created dens, worked collaboratively and continued to show great resilience and perseverance.

A plea!

The children would like to create their own Iron Men next week during our Art and DT lessons. To do this, can the children please bring a bag of junk modelling? This can be cereal boxes, inner tubes from kitchen roll, or anything they think will help with their designs! Thank you!

For home learning this week, I would like the children to complete spelling list 5 from their spelling books. I would also like the children to attempt the 'sound check' on TT Rockstars.

I hope you have a great week,

Mr Deakin, Mrs Gibbs and Mrs Ward.
