Tel: 01622-812330 or 07968-225159

Fusion Art Club will be running in Term 4 on Tuesdays from 25th February until 31st March 2020 between 3.20 to 4.20 pm (6 weeks at a cost of £30).

Next term the young artists will continue to explore pop art this time looking at Roy Lichtenstein, Peter Blake and James Rosenquist. Then during the latter part of term 4 I will set challenges using recycled materials for the children to create their own artwork in the form of sculptures, collage and paintings. They can experiment and use their newly acquired skills to develop their own projects and ideas. We will need to collect some recycled materials so if you can keep this in mind it would be great. I will discuss it with the young artists prior to the art sessions and let you know if I need any specific items.

The children this term have produced some super artwork based on the theme of commercial designs and brands in which they have created their own packaging, unique branding and product. This then led into our first foray into Pop Art where they have looked at Andy Warhol and Jasper Johns. They have been using stencils, tracing images, collaging, painting, cutting, drawing with pens and pencils. They have all been very enthusiastic and enjoyed the challenge which was wonderful to see especially when they had to problem solve their own ideas.

I just want to say a big thank you for your support!
